Magenta Pixie is a channel for the White Winged Collective Consciousness of Nine, and this latest transmission, recorded on May 20, 2020, is very exciting for those of us who have known about NESARA and GESARA for many years.

Magenta has been receiving information since 1993, but was only instructed by the White Winged Collective to release this information in the last fifteen years. To that end, Pixie has written books and released videos of her transmissions, as well as lately, her Divine Feminine Roundtable videos, recorded with five other powerful Lightworkers and Healers. (1.)

Goddess Lakshmi, Hindu Goddess of Wealth and Beauty

I first heard about NESARA from Sheldon Nidle fifteen years ago. It was also from Mr. Nidle that I learned about the Revaluation of Currencies and the Global Currency Reset.

For those unfamiliar with the NESARA law, you can do no better than read Steve's excellent article, published on April 15, 2010. Here's the link:

<https://goldenageofgaia.com/2020/04/15/what-is-nesara-3/>

For those who just want the cliff notes, then in brief, NESARA, the National Economic Security and Reformation Act, was passed by the American Congress in the year 2000, and signed into law by President Bill Clinton. It was never implemented.

NESARA was supposed to be implemented on September 11, 2001, but instead of NESARA, we got the tragic cabal-organized attack of 9-11. (2.)

Here are some of the essential points of the NESARA law:

- Zeroes out all credit card, mortgage, and other bank debt due to illegal banking and government activities. This is the Federal Reserve's worst nightmare, a "jubilee" or a forgiveness of debt.
- Abolishes the income tax.
- Abolishes the IRS. Employees of the IRS will be transferred into the US Treasury national sales tax area.
- Creates a 14% flat rate non-essential new items only sales tax revenue for the government. In other words, food and medicine will not be taxed; nor will used items such as old homes.
- Increases benefits to senior citizens.
- Returns Constitutional Law to all courts and legal matters.
- Reinstates the original Title of Nobility amendment.
- Establishes new Presidential and Congressional elections within 120 days after NESARA's announcement. The interim government will cancel all National Emergencies and return us back to constitutional law.
- Monitors elections and prevents illegal election activities of special interest groups.
- Creates a new U.S. Treasury rainbow currency backed by gold, silver, and platinum precious metals, ending the bankruptcy of the United States initiated by Franklin Roosevelt in 1933.
- Eliminates the Federal Reserve System. During the transition period the Federal Reserve will be allowed to operate side by side of the U.S. treasury for one year in order to remove all Federal Reserve notes from the money supply.
- Restores financial privacy.
- Retrains all judges and attorneys in Constitutional Law.
- Ceases all aggressive, U.S. government military actions worldwide.
- Establishes peace throughout the world.
- Releases enormous sums of money for humanitarian purposes.
- Enables the release of over 6,000 patents of suppressed technologies that are being withheld from the public under the guise of national security, including free energy devices, antigravity, and sonic healing machines. (3.)

Most people I know have known about NESARA and GESARA (Global Economic Security and Reformation Act) for years. It is what we have been praying for, visualizing and affirming daily, sometimes hourly, because it is part of Nova Gaia, a world that works for everyone. And the first thing we need, desperately, is financial abundance for all.

But GESARA is far more than just financial restructuring—it lays the foundation for Freedom. For a pristine, immaculately restored Gaia, Kingdoms and Humanity to our perfect original Divine blueprint bodies:

No more ‘yugas’ or ‘ages’ for Gaia every 26,000 years, of Light-Darkness, Light-Darkness, and no more poisons, radiation, war or destruction of her planetary body and Kingdoms; and for Humans, no more disease, old age, death-rebirth, no more power-over-others, despotic governments, endless laws, deception, etc.

Magenta Pixie’s transmission from the White Winged Collective Consciousness of Nine, is the latest in a list of many who have been predicting that one of the first changes to greet us at the end of the covid-19 lockdown, will be a Global financial and economic restructuring.

*“The great shift has begun: First, there is an entire reset of all systems on planet Earth. This is happening now.” ~ Adama of Telos (4.)*

*“The Pandemic will be over soon and GESARA will be released for all beings and this will Herald the beginning of a new world FOR ALL... HEALTH, WEALTH, HAPPINESS, FREEDOM and SAFETY for all Children [& Animals]... It is absolutely imperative that Star beings stay calm whilst keeping our awareness on the bigger picture at play knowing that this changing of the guard is absolutely necessary and is everything that we the awakened ones, have been praying for” ~ Jenji (5.)*

*“This is not the end of the world at all. It’s the great awakening... and when we get out of this we’re going to have a Global Financial Reset, which will have much greater prosperity... there’s literally trillions of dollars that the cabal stole that the Alliance has frozen... and that money will be released...” ~ David Wilcock (6.)*

*“The invisible Enemy will soon be in full retreat!” ~ President Donald J. Trump tweet, 4-20*

We are living in thrilling times. I know in my heart of hearts, that when a Global debt jubilee is announced, when mortgages, student loans, credit cards, medical loans, country-to-country loans, etc., are forgiven, the happiness factor on Gaia will skyrocket.

We won’t need articles asking us to keep our vibrations high, we will be orbiting Saturn without a space ship, on sheer joy alone.

Can’t you just feel the relief, celebration, laughter and wonder all over the globe from just that one shift?

Then know, without doubt, that countless miracles have been forming for decades in the ethers, and will be manifesting soon for Gaia, her Kingdoms and Humanity. Lord knows, we deserve it.

Enjoy Ms. Pixie.

Peace, Health and Abundance for all — We are Goddess, Sovereign, Free,

Magenta Pixie: The energetics upon your planet at this time and in the time period you call 'years' going forward. Due to polarity raise and dimensional shift that you know as 'ascension,' [the energetics] are conducive for many system changes.

**One of these systems that will change is your financial and economic system.**

For many years upon your planet, your financial system has been an inverted structure: This is a structure that mines and drains energy from those who put in the greatest effort—to be siphoned to those who put in the least.

0:55 This can be seen as a pyramidal structure with those at the base who put in the most effort, reaping the least in reward, and those at the apex point, putting in the least effort, for the greatest reward.

We are not saying here, that those individuals or companies upon your planet, that hold high wealth and profit do not put in effort to gain such, we speak here of the mentality and blueprint for the pyramidal structure as an inverted system.

1:35 Those at the apex point that we speak of would be those you know as illuminati – cabal – or deep state. There has been much prophesied regarding this financial and economic reset upon your planet, yet it remains to be seen, if you will, as to how the energetic of this reset shall affect the physical 3rd and 4th Dimensional realities.

One can surmise how this may play out for you, from your vantage point, yet accuracy of prediction in your current nexus point, holds a wide variable rather than a laser sharp intentional set point. This is due to the fact that the Timelines are now as wave particle merges in multiple quantum spiral formation, that we call convergence.

2:39 From our vantage point, we see the convergence and the infinite and finite aspects to it. Yet to present this to you in manifested form, would give you only a probability and not an eventuality. Probabilities hold percentages regarding likelihood of manifestation, yet these probabilities shift, as a moving ocean rather than a fixed graph, therefore they are helpful as guidelines only. The only eventuality is the central core point of the convergence structure, which is the singularity that is ascension or great awakening.

3:30 Each and every soul incarnated upon your planet Earth at this time, adds weight, geometry and thought-field fabric to the probability-field that is your financial and economic system. And for this reason, the generated field of such thought, action and intentional focus, is vast, complex, and convoluted.

3:55 We therefore shall present to you the converged picture within its technicolor rainbow wave form, as pure energetic, rather than manifested actuality. Here is the wave form, pre-matter template as convergence that is creation seed-point for the great financial and economic reset of 2020.

4:24 We utilize your current nexus point as the year of 2020, for this is the year that the financial reset first becomes evident within the minds and hearts of the peoples of Earth at high critical mass point.

In truth, this is a 2012 seed point energetic. The fluctuations of such have been seen for many of your Earth years prior to that. And many systems, sub-systems and individual Sovereign systems, within the overall system, will not show themselves until your year of 2024.

5:08 Nevertheless, this question and analysis of said convergence is high within the inquiring minds of Humanity, and as such, we present the picture of the converged wave spiral. What we show you here is the collapse, dissolution and disintegration of the inverted pyramidal structure in relation to the financial and economic system.

5:45 This by many of you, is interpreted as crash, or deep recession, and whilst this indeed matches the convergence energetics, it is not necessarily the most likely probability. Partial crash, or recession in smaller areas and pockets, fits the energetic as a higher probability.

6:07 Yet this is not a stand-alone event within the economic reset. There are multiple systems occurring within the one system. And where one may experience crash, another may experience release, flow and abundance. This stands in accordance with the sine wave, multiple wave, rainbow spectrum spiral field, that is the convergence point.

The pyramid structure will reinvent itself, so present in opposing formation. Those putting in greatest effort reap the greatest reward. And those putting in least effort receive the least reward. However, the effort itself and the reward are subject to the frequency that is polarity rays and dimensional shift. Therefore, if you will, are open to interpretation.

7:15 What this may look like is one person carrying bricks on their back all day, and another person sitting under a willow tree for the same amount of time. In one scenario it is the carrier of the bricks that puts in the greatest effort. Yet in another scenario, it is the one in meditation. For effort here is measured not by doing and action, but frequency of the heart, which may indeed involve doing and action.

7:50 Stillness, so to, can be just as different in presentation. For one, laziness and sloth may present, and for another, that same outer presentation in appearance, is in actuality focused entry into Merkeba zero-point travel. So thus, it is more conducive to explain this as effort interpreted as heart opened, giving and sharing of oneself, and who is working for the Light, if you will.

8:30 No effort in this case, would equate to lack of sharing and thus greed. This energetic no longer sustains within polarity rays and dimensional shift of ascension New Earth energies. So it is not so much a collapse of a system or a crash, but a restructuring and redistribution. This is of the most import.

9:02 It is a restructuring and redistribution.

This has been interpreted by many of you as taking from the rich and giving to the poor. A Robin-Hood style of redistribution. As does so happen amongst financial systems in fairly regular timed intervals throughout the ages.

**Yet this great financial and economic reset is not so much a Robin-Hood redistribution, but a magical or synchronistic redistribution.**

The Robin Hood character taking finances and giving them elsewhere may indeed manifest in pockets, yet the global and planetary-wide financial and economic reset is distributed through synchronicity.

**10:00 We repeat: The global and planetary-wide financial and economic reset is distributed through synchronicity. Events shall occur in direct correlation to one's own thought process, paradigm, aligned action, intentional focus, emotional expectation, and karmic balance.**

10:25 Whilst this law-of-magnetic-attraction style of living in abundance, has always been available, and has occurred in pockets due to hijacked inverted systems in place, it has never been global or planetary-wide.

10:45 Your Humanitarian causes and efforts have been hijacked with those against Humanity holding anti-life agenda, appearing to be representing Humanitarian systems. These hijacked aspects shall all now show themselves as part of the apocalyptic great reveal of 2020.

11:11 The great reveal, the great awakening, and the great unfolding shall, in and of themselves, contain and trigger the great financial and economic reset in that same nexus point as year 2020.

Greed, corrupt agenda, mining of other's resources, falsehoods, tricks, machinations, plots and plans—**shall be exposed**—and shall unravel back and forward in time, so a complete exposé is presented to the peoples of Earth's kingdoms.

11:58 The shock, regarding one's beloved ancestors, going back so far in your known histories, and the exploitations they lived entire lifetimes under, shall be extremely challenging for many incarnated humans to work through and integrate.

12:15 The cellular memories triggered through ancestral and pre-incarnate lines, will allow the resistance to financial lack, that so many of you have been existing under, to surface. Along with the reasons why such resistance templates have been buried so deeply within you. You are unraveling and setting free here years and years of your Earth's linear time operating under the inverted pyramidal structure as a financial and economic system we speak of.

13:00 Those in resistance to lack of finances, have operated predominantly in a fear-based program, preventing free flow of true creativity to flourish, and preventing true abundance. For let us say to you now, financial wealth and true abundance are not one and the same.

We repeat: Financial wealth and true abundance, are not one and the same. Resistance to lack of finances, can, in a light-centered being, create financial wealth through some form of creativity, yet true abundance can never be found through such a path.

Those living without resistance to lack of wealth, who hold joy, gratitude and wonder and the very barest and minimal material possession, may never acquire financial wealth, yet true abundance is there in every area of their lives, even as they walk barefoot on stony ground.

14:16 Abundance comes from the heart-centered trust and knowing, that the Universe provides all that is needed to the wise, humble servants of God-centered paradigm. Yet, as we have said, abundance can manifest as financial wealth.

Your saying, "It is easier for a camel to pass through the eye of a needle, than it is for a rich man to enter the kingdom of Heaven," [Mark 10:25] speaks not of financial wealth per se, but the attitude towards it. The resistance to lack of it. The greed for it. It refers to energetic light-body, Merkeba formation, through release of material attachment and the ability for Stargate ascension, unencumbered by 3rd dimensional trappings. Yet this has

been interpreted as financial wealth as being an undesirable hindrance to Spirituality and Enlightenment. This is correct only with its overall distribution when the system itself is inverted.

**15:35 So what you shall witness upon your planet is a distribution of financial asset and liquidation, occurring through synchronicity, as if by magic.**

Those who stand in humility, true surrender, and release from material gain, holding only the service-to-others energetic of serving the whole as an organism of Self, as Self, and with Self, shall reap the wonders of abundance, and indeed this shall involve and contain financial abundance as the inverted, controlled financial and economic pyramidal structure falls.

**16:21 You need have no fear of this fall if you stand in honesty, integrity, and service-to-others paradigm, of thought and action. For the Universal structure of the 5th dimensional heart, shall provide, through an organic free energy system, that you shall perceive as windfall, bequest, gift, donation, circumstance, synchronicity and magical act.**

16:58 Yet, in truth, this is a Science, or more accurately, a Physics equation at work. When the inverted financial system is exposed, deconstructed and dissolved, then the natural organic structure that replaces it, is a fair and free-flowing energy system. It will and shall take time, for those in the old energy, to understand the new system and the various different forms of currency that shall manifest upon your planet, as energetic-matches to the convergence, that is the great financial and economic reset.

17:44 Yet the experts, adepts and masters in this field, shall step forward and as the conductor conducts the orchestra, so shall they direct, teach, and assist the peoples into the new financial and economic system.

18:00 Do your banks and building societies have to crash and fall in order for this to take place? No, they do not, but they do have to, and will, change form. The deconstruction of the financial pyramidal structure involves a purging. This purging will be of all structures that do not align with this new free-flowing energy system. Some, will hold-on, will kick and struggle, and rant and rave, yet naught they do shall ever bring back what is old and gone and is no more.

**18:48 So you are looking here at a magical unseen system that begins NOW in your current time-space and has already begun.**

The system shall be in alignment with the effort of the heart, mind and body as one. Each individual that holds this personal integrity shall always be provided for. Yet being provided for will not be the predominant concern within these individuals; for they have moved beyond the base chakra survival system and have integrated that system with the heart.

19:31 Many think of their output in terms of financial reward or gain, and yet the new systems that shall manifest on your planet are not systems of financial reward or gain, but are systems of abundance. Energy shall match and equal energy, for this is the way of the organic structures, free from inverted hijack and false presentation.

20:02 With each purchase or monetary exchange, comes gratitude and compassion, instead of fear, greed or self-serving action. Service itself is the greatest form of currency, and that which you call “money” does not have the value of the paper said money is printed upon, if you will, to quote your Earthly saying amongst those who trade.

Barter shall find its place one again and you shall move back to the chicken for a boat ride or mixed beans for your cow system of old. And yet so too shall you move forward into digital binary code and cyber coin welfare, as system of new.

21:00 These new currency systems shall find placements alongside each other as your free financial system becomes a tool and opportunity for creativity in and of itself.

When it comes to your food and nourishment, you can indeed eat your currency, if you will, not as leverage for more control, but as accomplished and loving natural growth given with compassion and the welfare of others, as your first and foremost agenda.

As we have said, the forms that shall manifest within physicality from the convergence that is the great financial and economic reset, are plentiful, varied, and through creative innovation, they are infinite.

New ways, new ideas, new blueprints, all shall flourish under the flag of the New World, or, symbolic logo, of New Earth paradigm, and its people, children of Gaia, and her lands.

22:16 You have asked us if your NESARA (National Economic Security & Reformation Act) or your GESARA (Global Economic Security & Reformation Act) will manifest within your reality?

And what we can say is this: The principles of such reform plans fit the convergence point energetic. Yet there is scope within for exploitation as the template stands in your current NOW moment. Once inverted systems are reconfigured and reconstructed into libertarian free systems, then aspects of that which you speak of as NESARA and GESARA will be able to manifest in secure ways, yet may not be an actual mirror image to that which is presented in your NOW time.

23:15 The National version of this, NESARA, holds a higher probability of manifestation, as the global financial and economic reset template will be so varied and hold multiple systems.

Yet principalities of the Global version, GESARA, will be upheld, for this is about far and equal distribution of wealth, yet not as controlled equal division towards each person, but free equal division through Universal flow and synchronicity towards each energetic structure, which may be a person, a group of persons, a company or other business venture as a Sovereign structure.

24:08 So this is not necessarily equality, as in same amount divided amongst the peoples, but equality of the heart. Karmic balance is still at play within New Earth, if you will, yet the free-karma state is that which shall be achieved rapidly and freely in this new energetic.

24:30 Therefore the energies of pure authentic economic reform, as presented within the NESARA blueprint and proposal, indeed matches the new energetic templates and systems we speak of. The adepts and masters within the financial, economic and legal systems, will engineer shifts and tweaks where necessary, for the true financial and economic reset is not one static fixed statement as to how it should be and how it should stay, but is ever-evolving and reforming and updating to reflect the new businesses, economies and structures within New Earth.

25:20 Therefore, one could say, a permanently updating or fluid NESARA is that which shall settle into the manifested physical reality structure. This is in absolute alignment with that convergence we speak of, that is, the financial and economic reset of 2020.

25:45 Each country or region within the New Earth, shall perhaps interpret and implement this plan differently. Yet countries and regions themselves shall also shift and change, yet that is a whole other transmission.

And thus, we, the White Winged Collective Consciousness of Nine, begin the New Earth teachings that shall begin to be delivered across your globe, from those who are able to connect with the higher dimensional consciousness structures of heart-centered service-to-others intelligence.

26:26 You, existing within your future, the already created and thriving New Earth system, that is as real and pulsating with life as any busy city, state, village or town. These teachings come not just from us as one consciousness structure, but from many and varied Cosmic energetic mind and heart structures of Galactic origin, operating within the positive polarized fields, and indeed, to some degree, those within the neutral polarized fields.

27:05 The New Earth teachings come online now, if you will, for they hold the energetic encryptions and codices for the Sophia Aurora network, which shall be the very life's blood of New Earth society.

Your financial and economic systems are at the very heart of the Sophia Aurora network, and as such, these systems as one, are a unity system; an inclusive system in its authentic pure sense of the word. You are therefore part of this system, for it involves every living structure upon planet Earth. For together, you make up the Sophia Aurora network.

27:55 So this that you call financial collapse, or crash of the economic system, whilst indeed there shall be elements of such for many, it is indeed, in truth, a financial restructuring, an economic reset, holding the forward moving creative agenda of Freedom, Liberty and Opportunity for all who step into it.

28:25 This is that which we call the great financial and economic reset of 2020. And herein this transmission do we provide the keys, codes and triggers for that energetic to thus be held within and radiated from your consciousness into the creative field of reality and manifestation.

For indeed, who are the creators of the new financial and economic systems within the New Earth? Why indeed, these creators are, of course, YOU.

We are the White Winged Collective Consciousness of Nine.
